"Listen out our testimonies on UNSHACKLED!"

November 2017 Prayer Letter

Dear Brothers and Sisters in Christ:

In every thing give thanks: for this is the will of God in Christ Jesus concerning you. 1 Thessalonians 5:18. This verse speaks plainly to us, and is easily understood. But it is a very difficult verse for even the most spiritual Christian to apply to his or her life consistently EVERY DAY! In this chaotic world, we have a difficult time applying just this verse to our lives all of the time. But it is God's will. And He wants us to make the effort!

The Thanksgiving Holiday is more than a transition into "Black Friday", and the into remainder of the year. "Thankfulness for everything in our lives" is supposed to reflect our unwavering trust and dependence upon our Lord. Whether or not that is a reality depends upon us entirely.

We're so thankful for all the Lord has accomplished in our lives. Since we began full-time deputation last September 2016, we're travelled over 14, 368 miles circling the United States—the Lord has been so faithful to protect us during three blowouts on our RV, severe cold and tornado storms and mice invasions in Texas. We thank the Lord everyday for His mercies.

The Lord is so good to us—Deputation is definitely an act of faith. We covet your prayers for us on the road, for our adult children, and for Ukraine, who is still suffering the huge losses of a tragic war. Please pray for the people in Mariupol and Eastern Ukraine for God to intervene and restore all the losses they've experienced.

Please pray as we trust the Lord to return to Ukraine next summer. Pray for our health and for wisdom and humility to represent the Savior everywhere we go. May He help us to be the light that will lead others to Himself.

-Not that I speak in respect of want: for I have learned, in whatever state I am, (Even Texas!:) therewith to be content. Philippians 4:11

-May the Lord richly bless you this holiday season. But let us also strive to be a blessing to Him!

In Christ- Glen and Eve Williamson
